What is the legal basis for processing your personal data?

The Council has always required a legal basis to processing personal data. The General Data Protection Regulations include five lawful bases for local councils. It is possible for more than one to apply at the same time. The five bases are:

- **Compliance with legal obligation:** The council is a public authority and has certain powers and duties. Most of your personal data is processed for compliance with a legal obligation which includes the discharge of the council's statutory functions and powers. Sometime when exercising these powers or duties it is necessary to process personal data of residents or people using the council's services. We will always take into account your interests and rights. This Privacy Policy sets out your rights and the council's obligations to you in detail.
- **Contractual necessity:** We may also process personal data if it is necessary for the performance of a contract with you, or to take steps to enter into a contract
- **Consent:** Sometimes the use of your personal data requires your consent. On these occasions we will first obtain your consent to that use

The other two legal bases that apply to the Parish Council are:

- **Vital interests:** It is possible to process personal information to protect an individual

without their consent e.g., in a life-or-death situation where emergency contact information is needed

- **Public Interest:** When the Parish Council is acting in the public interest, personal data may be processed if it is necessary to undertake the tasks

Sharing your personal data

The council will implement appropriate security measures to protect your personal data. This section of the Privacy Policy provides information about the third parties with whom the council will share your personal data. These third parties also have an obligation to put in place appropriate security measures and will be responsible to you directly for the manner in which they process and protect your personal data. It is likely that we will need to share your data with some or all of the following (but only where necessary):

Other potential data controllers

- East Suffolk Council
 - Suffolk County Council
 - SALC

We may need to share your personal data we hold with them so that they can carry out their responsibilities to Brandeston Parish Council. If we work together for a joint purpose that involves your personal data, we are joint data controllers. This means those involved are all responsible to you for how we process your data. If there is no joint purpose, then each data controller is independent and is individually responsible to you.

How long do we keep your personal data?

We will keep some records permanently if we are legally required to do so. We may keep some other records for an extended period of time. For example, it is current best practice to keep financial records for a minimum period of 8 years to support HMRC audits or provide tax information. We may have legal obligations to retain some data in connection with our statutory obligations as a public authority. The council is permitted to retain data to defend or pursue claims. In some cases, the law imposes a time limit for such claims (for example 3 years for personal injury claims or 6 years for contract claims). We will retain some personal data for this purpose as long as we believe it is necessary to be able to defend or pursue a claim. In general, we will endeavour to keep data only for as long as we need it. This means that we will delete it when it is no longer needed and to ensure this happens, this will be addressed through a data storage and security review which is undertaken annually by the Parish Council Data Protection Officer (DPO).
